

Family Preservation Program

Today's families face economic pressures as well as communication difficulties that frequently disrupt family unity and the ability to cope. One of the most important tools needed to understand and cope with these issues is family counseling. Unfortunately, families often do not know how to access counseling, believe they cannot afford it, or are embarrassed to seek it out. **Greenbriar Children's Center's Family Preservation Program is here to help.**

Are there problems...?

In school ~ In the home ~ In the community

If the answer is "yes" to any of these questions
